

Hvis du har en iMac, åben det medfølgende kalender program:

Linket til Gåture er kopieret nedenfor (men findes også sidst I denne vejledning):

Får man det næste spørgsmål, er det op til en selv om man vil dele sin "location" med kalenderen. Personligt vælger jeg "Allow".

The image shows a screenshot of the Apple Calendar application on a Mac. The window title is "Calendar" with a menu bar containing "File", "Edit", "View", "Window", and "Help". The interface includes a sidebar on the left with "iCloud" and "Google" calendar sources. Under "iCloud", "Kalender" and "Gåture" are listed with checkmarks. The main area displays "7. januar 2017" (Saturday) in a "Day" view. A red speech bubble with white text says "Din kalender opdateres nu automatisk med nye Gåture" (Your calendar is now automatically updated with new Gåture). A blue event card is visible for "11.00 Nytårs gåtur 2017" at "Moesgård Strand, Strandskovvej 2, 8270 Højbjerg, Danmark". The time slots on the right range from 08.00 to 17.00. At the bottom left, a navigation bar shows "< november 2016 >".
